

16KWh Battery+12KW Solar Inverter+Solar Panel				
Product Name	Product Features	Unit price (USD)	QTY(pcs)	Total Cost (USD)
Vertical battery 	Battery Cell:Grade A Service life:3000+times,8+years Type:Energy storage battery Energy:51.2V1314Ah/16.07Kwh Chemistry Type:LiFeP04 Battery State of charge:maintenance-free Battery size:440'271'781mm Gross Weight:120kg 5years warranty	\$1500.00	1	\$1500.00
Solar Inverter.Off-grid 	Rated output power:12000W DC input voltage:48VDC Output voltage:120-240V AC 50/60HZ Split phase 12000W single phase 7200W PVArrayMPPTVoltageRange:90VDC-450VDC Maximum PV input power:6000W+6000W Size:620'450'132mm Gross weight:23.8kg 2 years warranty	\$950.00	1	\$950.00
Mono Solar Panel (Pls be noted that the sunshine coefficient 5 hours/day) 	Model:XY-550W Rated power(Pmax):XY-550W Size:2278*1134*30mm Weight 29kg Packing quantity:Bare board palletizing 10 years warranty	\$72.00	10	\$720.00
Roof color steel tile bracket 	aluminum alloy material Complete a set roof installation including all installation accessories Engineers customize according to actual situations Double board set	\$59.00	5	\$295.00
Photovoltaic cable 	Polyethylene TUV certified 4MM2 red and black each 20m copper core photovoltaic outdoor cabl. Includes complete system cables. equipped with 5 pairs of MC4 connectors	\$53.00	1	\$53.00
DC AC circuit protection. 	With circuit breaker,lightning protection switch.DC AC circuit protection.	\$89.00	1	\$89.00
Export wooden crate (Protect the solar panel) 	Protect the solar panel	\$89.00	1	\$89.00
(Ezcluding tax and shipping)The Total cost				\$3696.00
The sunshine coefficient is calculated according to 5 hours/day: The daily power generation:550W10*5=27500W,about27KW; The battery 51.2V*314Ah*1=16076.8WH,the daily storage power is 16.07Kwh..The remaining electricity supplies power to the load at the same time.
